

## Navigating the Airport to Find Your Transportation

Our goal is to make your vacation experience as extraordinary as possible throughout all stages of your vacation. From the moment you land in your vacation destination's city we want you to feel relaxed and ready to have fun. In order to help you do so, we have compiled a list of graphics and instructions about how to best navigate the airport so that you can navigate the airport and find your shuttle transportation with ease. Please read along so that your next airport experience in Mexico is a breeze.

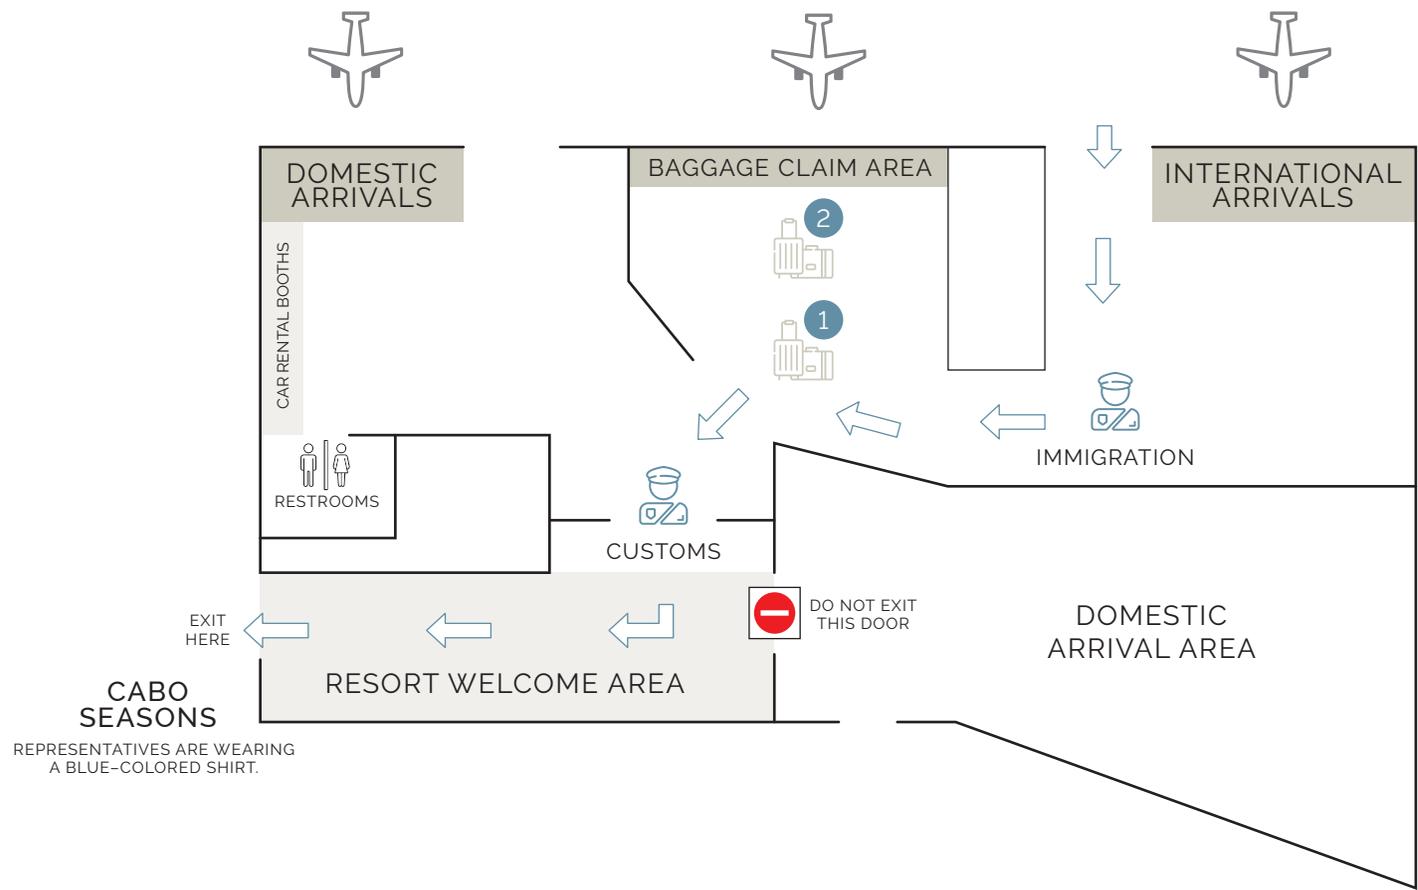

In all cities, once you claim your luggage you will then need to go through customs. Once you clear customs, you can proceed to navigate out of the airport and to your pre-arranged shuttle transportation as outlined in the corresponding graphics. Please note that the shuttle companies for all regions are stationed at the airport. You must check-in with them to receive your transportation.

### Puerto Vallarta International Airport

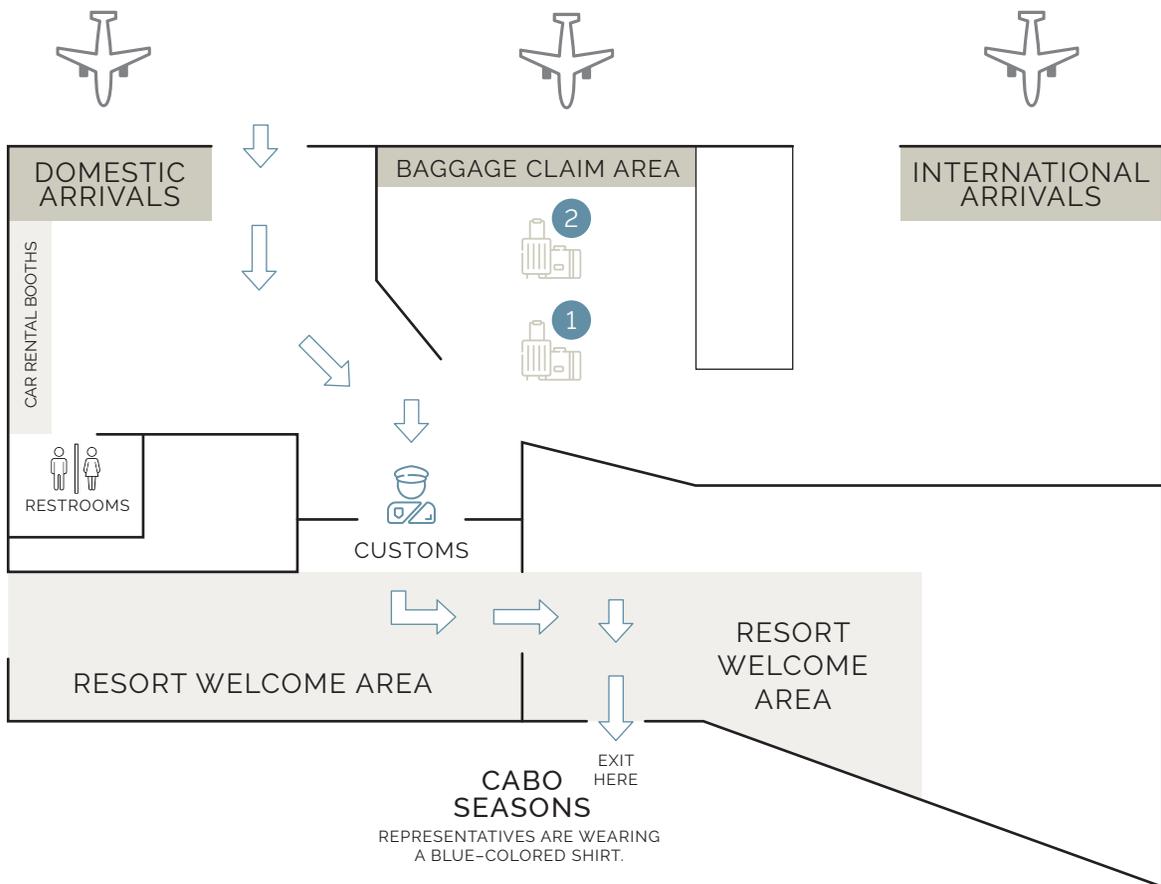

Look for your shuttle concierge in front of the Luggage Carousel by Baggage Claim **7**

# Los Cabos International Airport Terminal 1

# Los Cabos International Airport Terminal 2

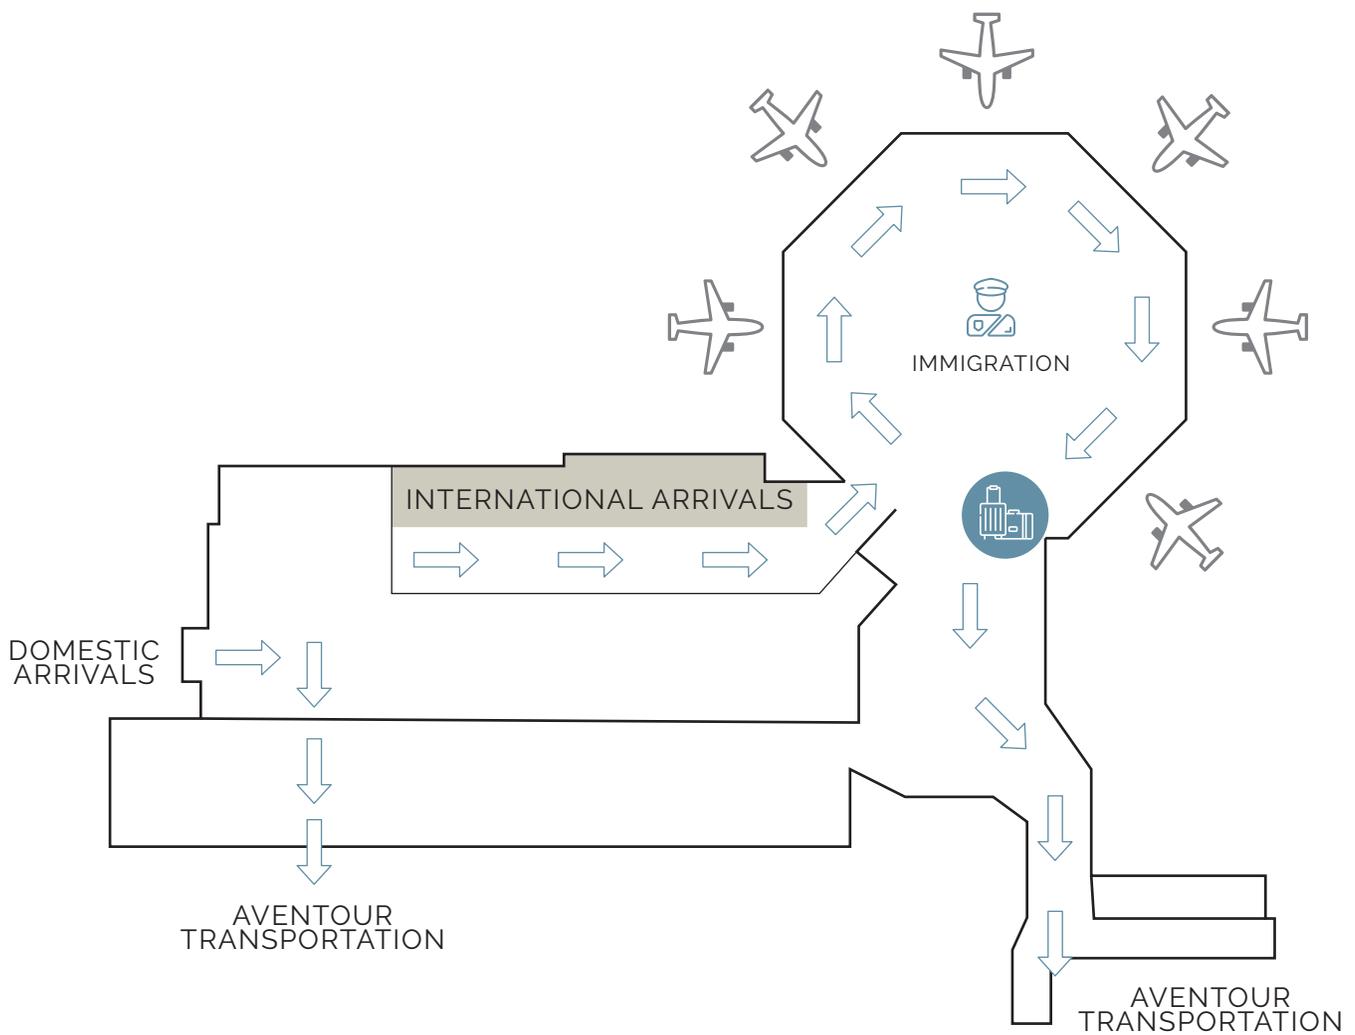

The transportation companies are outside under the white umbrellas area.

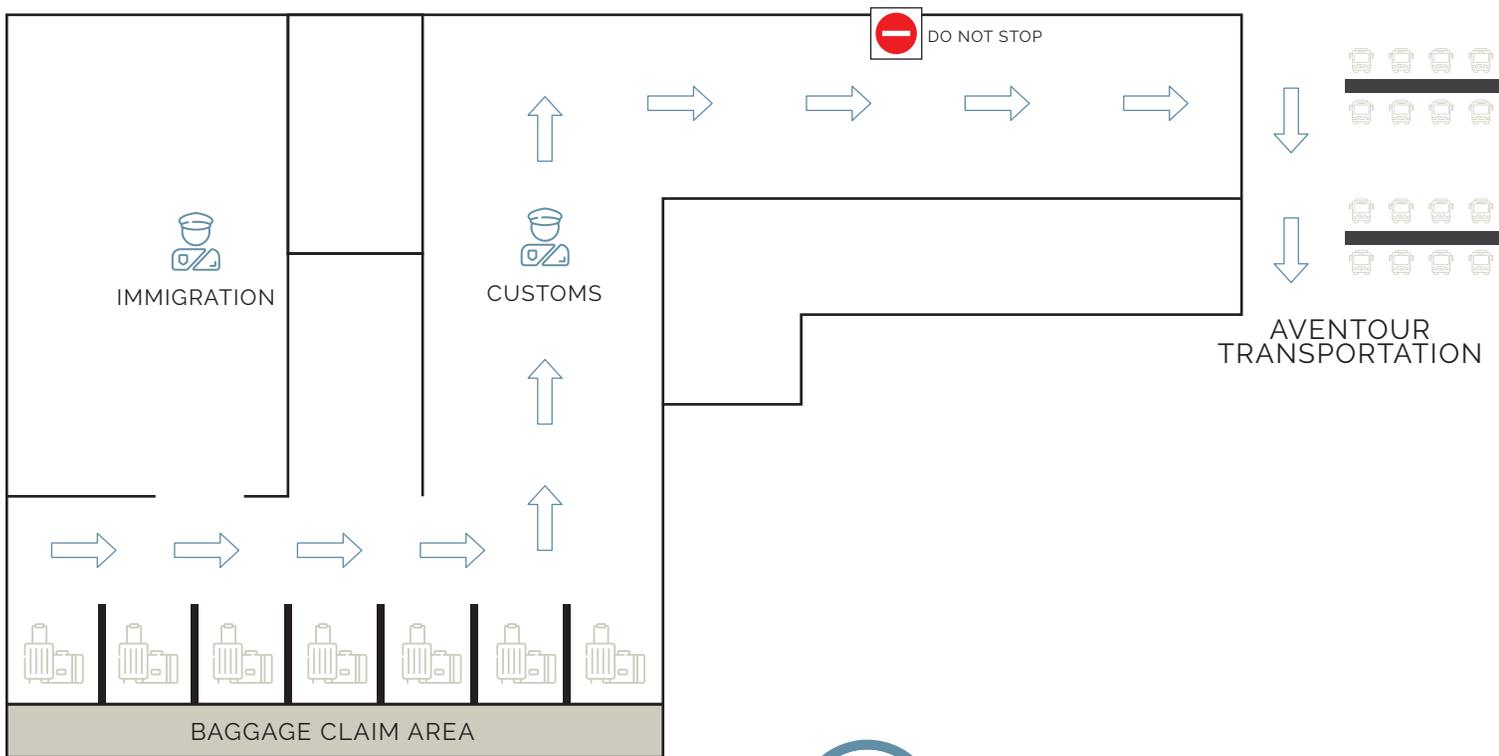

Cabo Seasons will be waiting for you under umbrella #11 #12 and #13 (the last umbrellas).

A representative will be holding a Cabo Seasons sign, ready to offer you their transportation service.

# Cancun International Airport Terminal 2

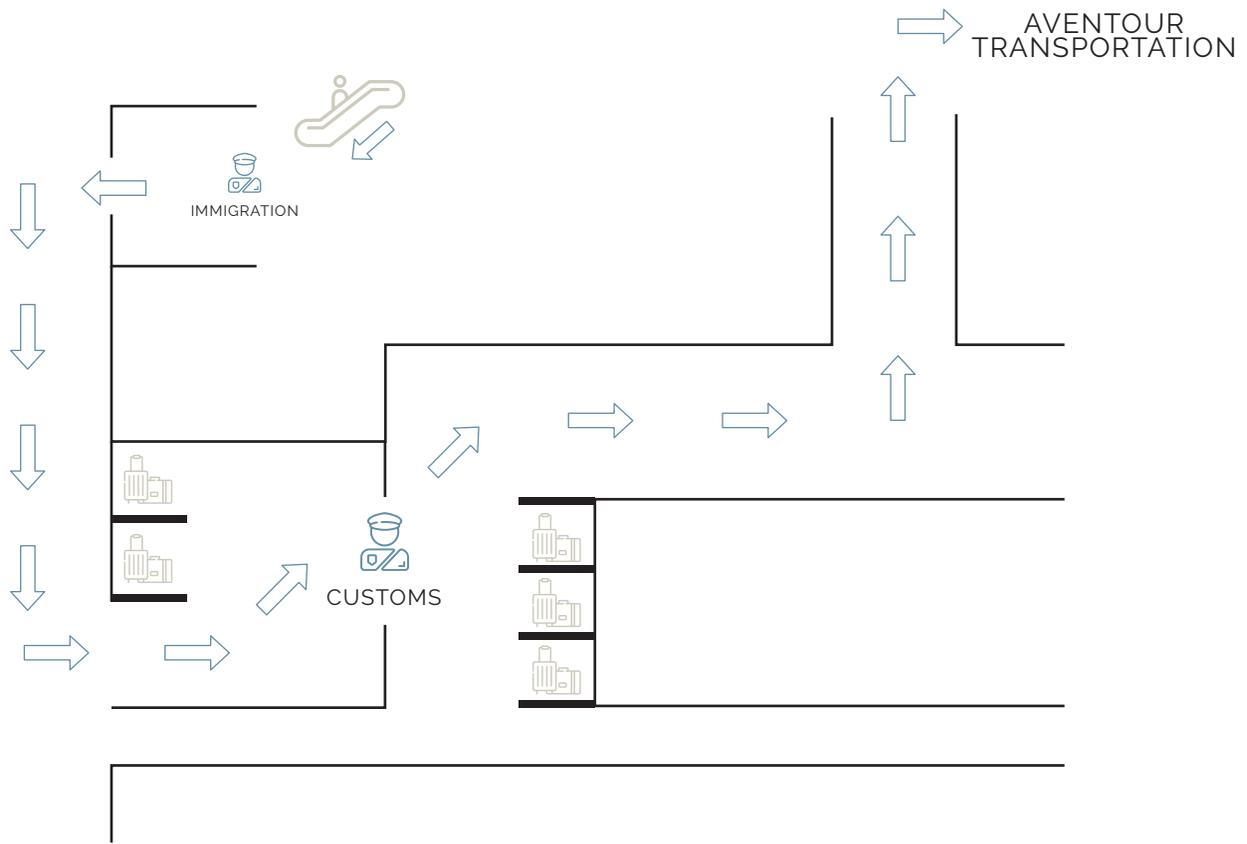

# Cancun International Airport Terminal 3

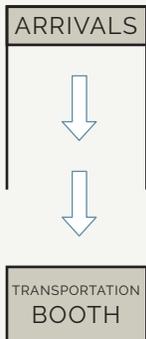

The transportation companies are outside the airport.

An AVENTOUR representative wearing a pink shirt will be ready to offer you their transportation service.

# Cancun International Airport Terminal 4

# Loreto International Airport

The Wild Loreto transportation vans are solid white, and the drivers will be wearing an orange or blue uniform shirt with the company logo. Show them your prepaid ticket, and you'll be on your way to the beach. These drivers have years of experience, and they're ready to help you load up the bags. While they love showing off Loreto, the airport shuttle does not make any stops along the way, allowing all travelers to make it to their destination on time.
